U.S. District Court, Northern
District of California, 2006

Karen Barth Menzies | KBM Law

Karen is the founder of KBM Law, recently formed and dedicated to representing and advocating for survivors of sexual assault. Karen has devoted her twenty-eight year career to advocating for women's health causes.

Karen is a nationally recognized mass tort attorney with more than twenty-five years of experience in federal and state litigation. Courts throughout the country have appointed Karen to serve in leadership positions including Lead Counsel, Liaison Counsel and Plaintiff Steering Committee in some of the largest pharmaceutical and device mass tort cases. Karen currently serves and has served in leadership positions in the Taxotere Litigation (federal court), Zolofit Birth Defect Litigation (federal and California state courts), Transvaginal Mesh Litigation (federal and California state courts), Fosamax Femur Fracture Litigation (California state court), Lexapro/Celexa Birth Defect Litigation (Missouri state court).

Karen represents survivors in high profile cases in the music and entertainment industry, including against well-known defendants such as Steven Tyler, Marilyn Manson, Nick Carter and others. She also represents survivors in the Boy Scouts of America bankruptcy, and survivors of clergy abuse.

Karen believes in advocating for the victims who've been taken advantage of by those in power. Her advocacy includes taking on the industries and institutions that silence survivors and foster and protect the sexual predators within their ranks. She has worked to help ensure drug safety in the face of profit-driven corporations that hide the risks of their products. She has testified twice before FDA advisory boards as well as the California State Legislature on drug safety concerns and the manufacturers' misconduct. She has also advised victim advocacy groups in their efforts to inform governmental agencies and legislative bodies of harms caused by corporations.

Karen frequently publishes and presents on issues involving sexual assault, secondary trauma, drug safety, mass tort litigation, FDA reform and federal preemption for both legal organizations (plaintiff and defense) and medical groups.
